DESCRIPTION

I am an enthusiastic software developer with an interest in game development and full stack development. I am currently the Senior Software Developer for the VR For Good Initiative at Equality Lab and am exploring job opportunities near Denver, Colorado and remote.

EDUCATION

The Ohio State University, Columbus, OH
BS in Computer Science and Engineering, 2020
Specialized in Computer Graphics and Game Design
Media Marketing and Communications Scholars, Pi Kappa Phi Fraternity

EMPLOYMENT

Equality Lab, Miami, Florida, June 2020 – Present, *Remote*
Senior Software Developer - Lead a team of developers to create VR For Good applications. Responsible for setting up, developing, and maintaining several versions of Equality Lab's custom hubs-cloud Web VR and Unreal Engine platforms that have been used by organizations around the world including the Paris Unemployment Office, Miami Dade County Schools, and The United States Institute of Peace in Pakistan. Notable technologies include Ammo.js, AWS, Blender, Digital Ocean, Fetch, Git, GPT-3, JavaScript, Node.js, React, Three.js, & Wordpress.

Classroom and Digital Union Tech Support, Columbus, Ohio, January 2020 – March 2020
