I am an enthusiastic full stack developer with three years of experience leading the development team at Equality Lab and am looking for a role in a larger team with a high ceiling for growth.

The Ohio State University, Columbus, OH
BS in Computer Science and Engineering, 2020
Specialization in Computer Graphics & Game Design, MMC Scholars, Pi Kappa Phi Fraternity

---

Equality Lab, Miami, Florida, June 2020 – Present, *Remote*
Lead Software Developer - I am responsible for several major Web VR applications that have been deployed for organizations around the world including the French Government.
Tools: AWS, Git, GPT-3, JavaScript, Linux, Node.js, React, REST, Three.js, Unreal, & Webpack.

The Ohio State University, Columbus, Ohio, January 2020 – May 2020
Classroom and Digital Union Tech Support - Provided tech support for students and professors with classroom equipment and software licensed by the school.
Tools: Adobe Suite, Diagnostic Software, Microsoft Teams, Problem Solving.

OARnet, Columbus, Ohio, January 2016 - May 2016
Data Analyst - Oversaw network communications for the state of Ohio, alerted management regarding outages and potential breaches, and troubleshooted ongoing issues.
Tools: C, IT, Problem Solving, SSH, & Unix.

CSE 5913 - VR Animation Capstone, *Eyes of Mariam*, January 2020 – May 2020
Project Lead - Managed project goals between developers and designers. Save The Children, chose our project to represent their efforts in bringing attention to education impedance in Africa.
Tools: 3D Modeling, Blender, C#, Mixamo, Oculus Quest, Unity, & Xbox Controller.

CSE 5544 - Data Visualization, *Interactive Mirror*, January 2020 – May 2020
Project Lead - In the midst of the COVID-19 outbreak, I managed project goals for a team of developers. We created a web tool to compare COVID-19 data between countries and received an A+ on the project.
Tools: CSS, D3, Excel, GitHub, HTML, JavaScript, jQuery, PHP, & Python.

Independent Development, *Financial Portfolio App***,** Summer of 2019
A web tool that scrapes all my financial accounts and generates a table that consolidates my portfolio.
Tools: CSS, HTML, JavaScript, Python

Independent Development, *Tanks 3D*, Summer of 2020
A 3D Multiplayer game that procedurally generates a new map and conditions for each match.
Tools: C#, Procedural Generation, Unity, & Xbox Controller.
